SKILLS

Programming Languages

JavaScript, TypeScript, Python, Dart

Frontend

React, Vite, Tailwind CSS, HTML5, CSS3

Backend

Node.js, Express.js, Firebase

Databases

Firestore, PostgreSQL, MySQL, MongoDB, SQLite

Cloud & Infrastructure

Docker, NGINX, AWS, Linux

Security

JWT Authentication, OAuth 2.0, Server-Side Validation, Input Sanitization, CORS, Rate Limiting, HTTPS/TLS

APIs & Integrations

REST APIs, OpenAI API, Gemini API, WhatsApp Cloud API, Firebase Admin SDK, Discord API

Artificial Intelligence

Advanced Prompt Engineering

CERTIFICATIONS

Cyber Warfare Certificate

Israel Cyber Campus (2025)

PROFESSIONAL SUMMARY

Backend-focused Full-Stack Developer with 4 years of hands-on experience building scalable production systems using Node.js and TypeScript. Sole developer in an early-stage startup, responsible for designing and delivering 4 large-scale external platforms from architecture to deployment. Strong background in backend architecture, role-based access control, security best practices, and large-scale data handling. Experienced in collaborating with product and design stakeholders and delivering SaaS-like systems serving real users.

EXPERIENCE

Store Associate

July 2024 – February 2025

Shlagogo Ltd. · Part-time

- Handled sales, inventory management, and customer service
- Managed daily store operations and logistics

Cook

February 2025 – June 2025

Jack By Black · Part-time

- Managed kitchen workflow and food preparation in a fast-paced environment
- Maintained hygiene and operational standards under time constraints

Discord Bot Developer (Volunteer)

March 2025 – October 2025

Arcusis · Part-time

- Developed and maintained a feature-rich Discord automation system serving active communities
- Built modular command architecture and advanced permission logic
- Implemented event-driven workflows and backend logic using Node.js
- Managed updates, feature expansions, and ongoing maintenance

Full-Stack Developer

June 2025 – Present

Yahal Software · Freelance

- Sole developer leading end-to-end development of 4 large-scale external client platforms
- Built scalable database structures handling large and complex datasets using Firestore
- Applied server-side validation, sanitization, and rate-limiting mechanisms
- Integrated external APIs and cloud services
- Collaborated with product managers and designers to translate business requirements into scalable technical solutions

Instructor

June 2025 – Present

Bowling Hasharon Ltd. · Part-time

- Provided customer-facing service in a high-pressure entertainment environment
- Diagnosed and resolved technical malfunctions in bowling lane systems and arcade machines
- Maintained operational flow during peak hours
- Worked with large groups including children and families
